

Witness Details

Name Marwa Khalid	
Address 123 Buckingham Palace Rd, London SW1W 9SH, UK	
Date of Birth 2026-05-13	Occupation Software Engineer

Questionnaire

Did you actually see the accident? Yes, I witnessed the collision directly from the roadside.
Where were you at the time, and how near to the scene of the accident? I was approximately 10 meters away standing near the crossing.
What were the weather conditions? It was sunny and visibility was clear.
What were the road conditions? Road surface was dry and traffic was moderate.
Please describe the vehicles and drivers involved A green vehicle collided with a silver vehicle approaching the junction.
Did you hear or see either driver give any warning?

No audible warning or horn was used.

Additional Witness Information

What lights were displayed on the vehicle?

The headlights were on for both vehicles.

At what speed would you estimate the vehicles involved to have been travelling?

Approximately 25-30 mph.

Was there anything to obstruct the view of any driver involved?

No obstruction was visible from my position.

Did any driver involved apply his brakes, swerve or skid?

The green vehicle appeared to brake suddenly before impact.

How far did each vehicle travel after impact?

The vehicles moved approximately 2-3 meters after the collision.

Could any of the drivers involved do anything to avoid collision?

The silver car had very limited reaction time.

In your opinion, who was to blame for the accident?

The green vehicle failed to stop appropriately at the junction.

Incident Details

Please give a full description of the accident

The accident occurred at the junction when the green vehicle failed to slow down and collided with the silver vehicle crossing the road.

Incident Sketch Plan

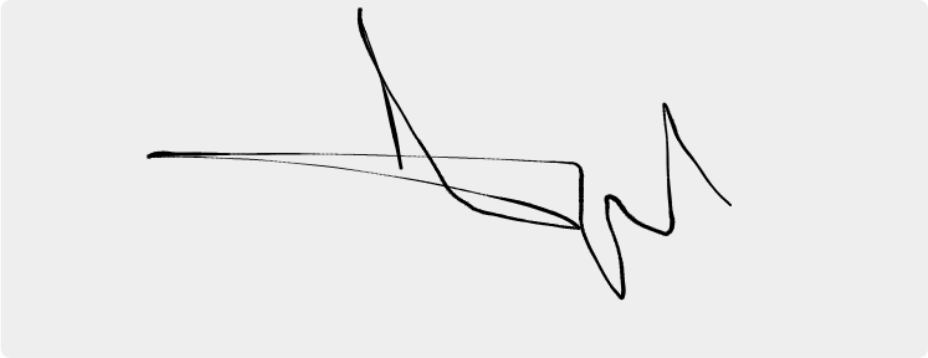

■ I believe that the facts stated in this witness statement are true.
