

## **User Story: Plating and Additional Charges**

### **As a Claims Handler,**

I want to enter the hire vehicle plating charges and select applicable additional chargeable items, so that I can accurately record all costs related to the hire vehicle.

#### **1- Hire Vehicle Plating Charges (Manual Entry)**

The user must be able to manually enter:

- Private Hire Plating Fee (£)
- Private Hire MOT Cost (£)
- Total Plating Cost (£)

#### **System should:**

Automatically calculate **Total Plating Cost** by adding both values.

#### **2- Additional Chargeable Items**

This section includes only four items:

- Automatic (£) - editable amount
- Estate (£) - editable amount
- Additional Premium (£) - editable amount
- Additional Driver Charges (£) - editable amount

#### **System should allow:**

Manual entry of numeric values for all four fields.

#### **Acceptance Criteria**

- User can manually enter charges for plating and additional items.
- Total Plating Cost must auto-calculate.
- Numeric validation must apply to all fields.
